

KEIHIN-FCR POWER PUMP

The Power Pump is an accelerator pump cover that features an adjustable leak jet, allowing you to make easy changes with a screwdriver even while the engine is running! Fits ALL FCR carbs. Changing the leak jet size changes the amount of fuel that the accelerator pump squirts into the cylinder head. The Power Pump makes that a snap!

KEIHIN-FCR POWER BOWL

The Power Bowl is a complete float bowl, accelerator pump, and fuel supply system for the Keihin FCR carburetor. It keeps fuel from sloshing away from the main jet and eliminates bogging in your 4-stroke engine. The Power Bowl also includes the Power Pump with adjustable leak jet, so everything about your ride just got better!

KEIHIN-FCR FUEL MIXTURE SCREWS

FLEX JET

Why continue burning your fingers, attempting to adjust a rigid fuel screw? Or worse, deal with fuel screws that vibrate loose while riding. R&D introduces "Flex-Jet" with a simple and effective flexible shaft design, is the new industry standard. EZ quick adjustments are now within reach with easy access and no burnt fingers. Flex-Jet utilizes a speedometer-style cable (not a spring) to hold its setting and provide true tuning with 1-to-1 action and adjustability without any slop. Loose fuel screws are a thing of the past! **KIT INCLUDES:** Flex-Jet (Remote Fuel Screw), Washer, Bracket, O-Ring, Screw, Instructions, Spring, and Sticker.

Description	Part #	Retail
Flex Jet	18062-00	32.95
